Express

GitLab

## Things I've Worked On

- Dynamic Website
- REST API Calls
- Responsive UI design
- JavaScript Libraries
- Testing & Debugging
- JSON Data
- Improved Features

## Introduction

I am a Passionate Developer proficient in designing & developing user interfaces, testing, and debugging. Proven ability in optimizing web functionalities that improve data retrieval & workflow efficiencies.

## Work Experience

**InfoScalez Technology Pvt. Ltd**      **Sept-2020 to Mar-2021**

### WebApp Development:

- Produced Visual elements of web applications by translating UI/UX design wireframes into code using React.Js and Redux.
- Fixed bugs from existing web app & Implemented enhancement that Significantly improves web functionality and speed.
- Integrated Major features such as
  - a. React Google Maps
  - b. Invoice (Pdf) Generation using NPM
  - c. Firebase push notification
  - d. Date Filter using Material UI & Redux
- Produced Scalable and Reusable components for future use
- Responsible for managing and debugging few components in the web application
- Specialized in using JavaScript Libraries for adding new features.

### Website Development:

- Designed dynamic and interactive webpages using HTML5, CSS3, jQuery, and JavaScript that ensured high traffic, page users and user experience.
- Built Single Page Applications (SPA), responsive web design, UI using HTML5 grid layouts, and CSS3 media queries.
- Managed and Designed More than 5+ dynamic websites.
- Analyzed requirements and designed, developed and implemented software applications for multiple websites.

## Personal Projects

- **WebApp for a Baker:** it's a fully functional E-commerce website using React, Node, and Mongo DB
- **Image Search Engine:** Web Application for high-quality image search made using react and Pexels API
- **Quick Quiz Game:** made using JavaScript and Trivia Quiz API
- **Business Website:** SPA using HTML CSS JavaScript & jQuery
